DETAILED ACTION

1. Acknowledgment is made of Amendment filed September 11, 2006.

Allowable Subject Matter

2. Claims 1-10 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Applicants' remarks on page 4 of the Amendment have overcome the art rejection. The prior art of record fails to teach or fairly suggest a magnetic stripe card reader for reading a magnetic stripe on a card having at least one track of magnetically stored information stored thereon as a stream of encoded discrete data bits separated by bit times, having, among with other limitations, a data converter incorporated on an integrated circuit for receiving and converting the raw analog signal to a digital time series of digital values representing the time varying analog value of the magnetic pulses; and a processor incorporated on the integrated circuit for processing the digital output of the data converter and operable to: determine potential bit boundaries in the encoded data bits to define the digital values thereof, recover timing information from the digital time series to discriminate the bit times between data bits, and determine the value of each data bit during each bit time to provide a stream of extracted data bits as set forth in independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
